SUMMARY

Enthusiastic CS student who loves clear communication, teamwork, and solving problems. Experienced in public speaking and hosting events, with a strong interest in technology, design, and practical development projects

KEY ACHIEVEMENTS AND ACTIVITIES

- **1st Place – Group Debate Competition:** Secured first prize by effectively presenting arguments, analyzing counterpoints, and collaborating with team members under time constraints.
- **1st Place – Public Speaking Competition:** Awarded first prize for delivering a compelling address, demonstrating strong vocal delivery and audience engagement **among 1000 candidates**.
- **2nd Place – Controversy Desk Article Writing:** Earned second prize for an analytical article evaluating "**Media: Biased vs. Unbiased**," showcasing critical thinking and structured research.
- **Academic Excellence Award (Class 10):** Recognized for scoring above 90% in the Secondary School Board Examinations.

PROJECTS

Personal Portfolio Website

- Designed and developed a fully responsive, **modern personal portfolio** to showcase web development projects, skills, and accomplishments.
- Implemented clean component architecture and smooth **UI** layouts for optimal user experience across desktop and mobile devices.
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, HTML, CSS, Git.

AutoXP – AI-Powered Used Car Price Prediction & Marketplace(In progress)

- Built a **responsive web platform** that estimates used car market prices based on vehicle specifications and lets users browse listings.
- Supported the **FastAPI** backend service to handle price predictions based on brand, model, year, kilometers driven, fuel type, and transmission.
- Integrated the **React front-end with backend APIs**, assisted with feature testing, fixed core issues, and prepared the app for deployment.
- **Tech Stack:** FastAPI, React, PostgreSQL, Scikit-learn, Python, JavaScript, REST APIs, Git.
